

Hollywood has always been an idea as much as a place, a play of surfaces and stories, the real and out of reach. Our Spring/Summer 2019 Collection channels the early 80s scene with eyewear influenced by glamour, energy, and look of movies like American Gigolo and Scarface.

The collection features unique acetate silhouettes with generous curves, sculpted metal shapes with electric angular surfaces, and combination frames with retro cues and contemporary constructions. Inspired by the colors and iconography of the time, we developed custom acetates with a vibrant mix of bright Miami pastels and California natural tans and neutrals to create stylized classics straight out of Hollywood.
